

# ROSTEX

## ACID AGENT FOR REMOVING LIMESCALE AND RUST FOR PROFESSIONAL USE

1L, 5L, 25L

### AREA OF USE

- Removal of limescale deposits and rust
- Cleaning of concrete surfaces, water meters, stone buildings, facades and vacuum systems
- Removal of bottom sludge from drainage systems, removal of limescale from heating installations

### PROPERTIES

- Strong acid cleaning agent with low foam formation
- Efficiently removes layers of limescale and rust.

### INSTRUCTIONS OF USE

- Apply the agent onto the surface to be cleaned, leave to act, then rinse with water.
- Recommendation: Metal surfaces should be neutralized after cleaning with an alkaline agent and rinsed with water.

### DOSAGE

- Dilute with water 1:10 – 1:20 (depending on the surface to be cleaned)

### COLOUR AND STATE

- Brown liquid completely soluble in water

### INGREDIENTS

- Hydrochloric acid
- Phosphoric acid
- <5% non-ionic surfactants

pH 1,0

C

Caustic

### CAUTION

- Strong acid substance. Observe safety measures. Use protective eyewear, rubber gloves and protective clothing. In case of contact with eyes or skin, rinse immediately with plenty of water and seek medical attention.
