

# SANTEKS-GEEL

## ACIDIC CLEANING GEL FOR REMOVING LIME AND RUST 1L, 5L, 25L

### AREA OF USE

- Sanitary rooms, industrial kitchens and hospitals;
- In undiluted form suitable for cleaning toiletry;
- In diluted form suitable for cleaning stainless steel items;
- Glass and ceramic tiles on walls.

### CHARACTERISTICS

- Efficient disinfecting concentrate;
- Efficiently removes even caked dirt, rust, lime and mould;
- Gel-based agent foams and stays longer on slippery and inclined surfaces.

### DIRECTIONS OF USE

- Apply the agent to the soiled surface and let the agent work for a few minutes. Then clean the surface with a brush or a sponge and rinse with water.

### DOSAGE

- Mix with water with a ratio of 1:10- 1:100 (depending on the degree of soiling).

### COLOUR AND STATE

- Gel-type greenish liquid, fully soluble in water, light smell.

### INGREDIENTS

< 3% cationic surfactant;  
Phosphoric acid;  
< 3% non-ionic surfactant;  
Biopolymer;  
Ammonium chlorides.  
pH 1.5

### WARNINGS

- Wear protective gloves. Not suitable for using together with substances containing chlorine.
